Professional Summary

Software Development Engineer with experience building production-ready web applications using PERN and MERN stacks. Skilled in designing secure REST APIs, implementing authentication and authorization systems, and optimizing database performance. Proven ability to deliver enterprise-grade solutions in Agile environments with a focus on clean code and scalability.

Technical Skills

Languages	C++, JavaScript (ES6+), TypeScript, SQL, Python
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, REST APIs, JWT, RBAC
Database	PostgreSQL, MongoDB, Prisma ORM, Mongoose
DevOps & Tools	Git, GitHub, Redis, BullMQ, Postman, Vercel, Render
Other	Agile/Scrum, CI/CD, API Design, System Architecture

Professional Experience

ITSOFT LAB

Software Development Engineer

Indore, MP
May 2026 – Present

- Promoted from Intern to SDE within 3 months based on performance and project contributions.
- Developed and deployed enterprise applications using PERN Stack serving 500+ users across organizations.
- Designed secure REST APIs with JWT authentication and RBAC for multi-role access control.
- Optimized PostgreSQL queries and implemented Redis caching, improving performance by 60%.
- Built scalable backend systems handling 10,000+ daily requests with 99.9% uptime.
- Collaborated in Agile teams delivering features in 2-week sprint cycles.

ITSOFT LAB

Software Developer Intern

Indore, MP
Feb 2026 – Apr 2026

- Developed features for Vendor Management System and Marketing Automation Platform.
- Built REST APIs using Node.js, Express.js, and PostgreSQL with Prisma ORM.
- Implemented background job processing with Redis and BullMQ for async operations.
- Created responsive UI components using React.js and Tailwind CSS.
- Received Outstanding Performer recognition and early promotion to SDE.

Projects

Vendor Management System

Enterprise Live Project

- Built comprehensive VMS for procurement automation serving 50+ enterprise clients.
- Implemented workflows: vendor onboarding, purchase orders, invoices, 3-way matching.
- Designed RBAC with 5+ user roles including Manager, Approver, and Admin.
- Optimized queries with Prisma ORM reducing execution time by 45%.

AutoMarket - Marketing Automation

Enterprise Live Project

- Developed marketing platform managing 50,000+ monthly campaigns across channels.
- Integrated Redis and BullMQ for reliable campaign scheduling and processing.
- Implemented audience segmentation with 20+ filters for targeted campaigns.
- Processed bulk CSV imports of 10,000+ records with progress tracking.

IT 360° Platform

Enterprise Platform

- Contributed to flagship enterprise platform providing digital solutions.
- Built modular React.js components following atomic design principles.
- Implemented JWT authentication and third-party API integrations.

Education

IPS Academy, Indore

B.Tech in Computer Science & Engineering

2022 – 2026
CGPA: 7.0/10

Higher Secondary (MPBSE)

Class XII

2022
Percentage: 79%

Secondary (MPBSE)

Class X

2020
Percentage: 82%

Achievements

- Fastest promotion from Intern to SDE within 3 months.
- Delivered 5+ enterprise projects used by 100+ clients.
- Received Client Excellence Award for VMS Platform delivery.
- Achieved 99.9% API uptime for enterprise applications.
- Reduced database query latency by 60% through optimization.
